

Prabhat Kumar

Java Backend Developer

+91 7250063206 | Mailtoprabhat72@gmail.com | Bengaluru, India | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Proactive Java Developer with expertise in Java, SQL, Spring Boot, Hibernate, MySQL, and Maven. Proficient in CRUD API Development, Postman, and GitHub. Seeking immediate opportunities.

WORK EXPERIENCE

Java Backend Developer (Freelance)

March 2024 – April 2025

JMR Infotech

Project: Cafe Management System

- Developed the backend for a full-fledged café management system, enabling seamless interaction between users and administrators.
- Implemented secure login & authentication using Spring Security & JWT to prevent unauthorized access.
- Designed product management features such as adding, updating, deleting products, and tracking inventory.
- Integrated role-based access control (RBAC) to restrict critical operations to admin users only.
- Enabled bulk product upload from Excel using Apache POI, improving admin efficiency.
- Technologies Used:** Java, Spring Boot, Hibernate, REST API, MySQL

Technical Support Engineer

June 2025 – Oct 2025

Startek Technology Private Limited

- Provided technical support for Acer systems and end-users across multiple environments.
- Troubleshoot hardware and software to minimize downtime.
- Handled incident management, ticket resolution, and escalation for critical issues.
- Assisted clients with system configurations, updates, and application usability.
- Collaborated with cross-functional teams to ensure smooth service delivery.
- Tech:** Windows, Remote Support Tools, Ticketing Systems

INTERNSHIP

Java Software Engineer

July 2023 – Dec 2023

CodeSpeedy Technology Pvt. Ltd.

Project: Supply Chain Management System

- Designed and implemented a comprehensive login and signup system, integrating backend components and collaborating with frontend & QA teams.
- Mapped relational models and implemented custom exceptions for smooth error handling.
- Ensured application security using Spring Security, password encoder, and JWT authentication.
- Tested APIs using Postman, debugged effectively, and optimized the code.
- Technologies Used:** Java, Spring Boot, Spring MVC, Postman, JWT Token, ORM, MySQL

SKILLS

- Programming Languages:** Java, SQL
- Web Technologies:** RESTful API
- Cloud Services:** AWS (EC2, S3, Lambda, RDS, IAM, CloudWatch)
- Database Technologies:** MySQL
- Version Control:** GitHub
- Development Frameworks:** Spring Boot
- Operating Systems:** macOS, Windows
- Development Tools:** Eclipse, IntelliJ IDEA, Visual Studio Code, MySQL Workbench
- Other Tools & Methodologies:** Docker, Postman, JIRA

EDUCATION

BE in Computer Science & Engineering, Visvesvaraya Technological University 2019 – 2023

(CGPA: 7.3)

Bengaluru, India
