

# Prabhat Kumar

Java Backend Developer

+917250063206 | [mailtoprabhat72@gmail.com](mailto:mailtoprabhat72@gmail.com) | Bengaluru, India | [LinkedIn](#) | [Portfolio](#)

## PROFESSIONAL SUMMARY

Proactive Java Developer with expertise in Java, SQL, Data Structures, Spring Boot, Servlets, Hibernate, MySQL, JPA, and Maven. Proficient in CRUD API Development, Postman, and GitHub. Seeking immediate opportunities.

## WORK EXPERIENCE

### JMR Infotech Pvt Ltd

Mar 2023 - June 2025  
Gurugram, India

#### Project: Supply Chain Management System

- Designed and implemented a comprehensive login and signup system, integrating the backend components and collaborating with the frontend and QA teams.
- Implemented data mapping for relation models and created custom exceptions to handle errors and ensure smooth application flow.
- Ensured application security using Spring Security, password encoder, and JWT authentication.
- Tested APIs using Postman, identified and removed bugs through effective debugging, and optimized the code.
- Technologies Used:** Java, Spring Boot, Spring MVC, Spring Security, Postman, JWT Token, ORM, MySQL

#### Project: Real Estate Listing & Blog Management System

- Contributed to the "Real Estate" project by spearheading key aspects of backend development.
- Collaborated with a team of 8 to develop a blog module for a real estate project, enhancing the platform's content management capabilities.
- Enabled users to create, edit, and manage blog posts related to real estate trends and property listings, contributing to improved user engagement and content richness on the platform.
- Technologies Used:** Java, Spring Boot, Hibernate, Maven, Postman, MySQL, RESTful API

## PROJECTS

### Cafe Management System

- Developed the backend for a full-fledged cafe management system, enabling seamless interaction between the users and administrators.
- Implemented secure login & authentication using Spring Security & JWT, preventing unauthorized access.
- Designed product management features, such as adding, updating, deleting products and tracking inventory. Integrated role-based access control (RBAC), to restrict critical operations to admin users only.
- Developed custom exception handling and optimized database queries using Hibernate & JPA.
- Enabled bulk product upload from Excel to database using Apache POI, improving admin efficiency.

## SKILLS

**Programming Languages:** Java, SQL

**Web Technologies:** RESTful API

**Cloud Services:** AWS, EC2, S3, Lambda, RDS, CloudFront, IAM, CloudWatch

**Database Technologies:** MySQL

**Version Control:** GitHub

**Development Frameworks:** Spring, Spring Boot

**Operating System:** macOS, Windows, Linux

**Development Tools:** Eclipse, IntelliJ IDEA, Visual Studio Code, STS, MySQL Workbench

**Other Tools & Methodologies:** Docker, Postman, Jenkins, JIRA, Agile

## EDUCATION

**Bachelor of Engineering in Computer Science & Engineering**, Visvesvaraya Technological University 2019 — 2023  
(GPA: 7.3) Bengaluru, India

## CERTIFICATIONS

- [Software Engineer Certified by HackerRank](#)
- [SQL Certified by HackerRank](#)
- [Gold Badge Holder on HackerRank](#)
